Applicant is submitting this amendment in response to the Final Action of April 3, 2006 and therefore has eliminated all of the objectionable material in the claims as per the examiner's suggestions and comments. Specifically, all non-allowable claims have been canceled and all claims remaining in the application have been deemed allowable through the present and past Office Actions. It is therefore believed that the amended claims are now allowable over the prior art, and the examiner is to be commended for his assistance in resolving these matters.

Respectfully submitted,
